

Back 2 U

Yours Truly

I heard you say, "Nothing can last forever"
I heard you say, "Nothing can last forever"

I'm scraping the surface
It pulls me under

And do you think it's worth it?
Can you tell me if I'm blind?

I heard you say, "Nothing can last forever"

If we're going down
Would you meet me there?
I wanna get back to you, back to you
I wanna get back to you, back to you
Fear I'm going down
And you'll leave me here
I wanna get back to you, back to you
I wanna get back to you, back to you

I heard you say, "Nothing can last forever"
I heard you say, "Nothing can last forever"

If you don't stick around
Why would I either?
And if I let you go
Would you run forever?
Coz I could watch it all become dust
And still be stuck inside my dreams
But even with my eyes sewn shut
I still see you crystal clear

I heard you say, "Nothing can last forever"

If we're going down
Would you meet me there?
I wanna get back to you, back to you
I wanna get back to you, back to you
Fear I'm going down
And you'll leave me here
I wanna get back to you, back to you
I wanna get back to you, back to you

Been bleeding me so dry
It's draining out my mind
I want you to know, want you to know, ooh-ooh
I need you by side
Don't wanna be alone tonight
I want you to know, want you to know, ooh-ooh

I heard you say, "Nothing can last forever"

If we're going down
Would you meet me there?
I wanna get back to you, back to you
I wanna get back to you, back to you
Fear I'm going down

And you'll leave me here
I wanna get back to you, back to you
I wanna get back to you, back to you

I heard you say, "Nothing can last forever"
