

Together

Yours Truly

Believe me
It's more than what it seems
Can you talk me down? (talk me down)
I need to cut it out (cut it out)
And tell me
I'm where I'm meant to be
I won't mess this up
Can't help but think I'm gonna

If you look inside my mind
Would you
See me the same
See me the same?
It's easy to pretend
That we're feeling okay
Feeling okay

Tell me why I feel this way
The color drained from my brain
Get it straight and put my head together
Sometimes I feel so out of place
And if I'm worth the pressure
Check myself and pull it all together
Pull it all together

Clarity
Blur my confidence
My anxieties
They come out when they wanna

If you look inside my mind
Would you
See me the same
See me the same?
'Cause it's easy to pretend
That we're feeling okay
Feeling okay

Tell me why I feel this way
The color drained from my brain
Get it straight and put my head together
Sometimes I feel so out of place
And if I'm worth the pressure
Check myself and pull it all together
Pull it all together
Pull it all together
Pull it all together

Tell me why I feel this way
The color drained from my brain
Get it straight and put my head together
Sometimes I feel so out of place
And if I'm worth the pressure
Check myself and pull it all together
Pull it all together
Pull it all together
Pull it all together
