

Vivid Dream

Yours Truly

Don't know what's next
I'll worry about it later
Cause I'm at my best
And it's now or never

It's crazy how your life can seem
Insane but still put together
But when I'm staring out to see
What I set out to be
Oh I think I'm living in a Vivid Dream

Flesh and bone
Oh how could this get better
I don't wanna give it up
Give it up no way
Sticks and stones
When nothing last forever
I don't wanna give it up
So tell me I can stay

Wake up today
Will it all be long gone
Coz I'm still pinching
Myself on the regular

And there isn't a part of me
That doesn't feel truly honest
But when I'm staring out to see
What I set out to be
Oh I think I'm living in a Vivid Dream

Flesh and bone
Oh how could this get better
I don't wanna give it up
Give it up no way
Sticks and stones
When nothing last forever
I don't wanna give it up
So tell me I can stay

Oh no
Don't wanna fade away
Through windows
Wonder and rearrange
Think I'm living in a Vivid Dream

If anything is real
And this is all of the appeal
Fresh breath of air to feel the breeze
With every thing outside to please
Still don't know what's next
No I don't know what's next
No I don't know what's next

Flesh and bone
Oh how could this get better
I don't wanna give it up

Give it up no way
Sticks and stones
When nothing last forever
I don't wanna give it up
So tell me I can stay

Oh no
Don't wanna fade away
Through windows
Wonder and rearrange
Flesh and bone
I'll watch it waste away
Sticks and stones
I know that I can stay
When I'm living in a Vivid Dream
