

## How Can We Live Like This

Youth Brigade

Don't tell me you're helpless  
Nothing makes a difference  
Attitudes do change a thing  
Their's more to life than living  
You live, you die, you wonder why?  
Most people will make the time  
You dream, you hopes, you just can cope  
With the life that you can't understand

I'm sick of all the bitterness  
I'm sick of all the hate  
Everyone's so disconnected  
No one can communicate

How can - how can - how can we live like this?  
How can - how can - how can we live like this?
