

Lucy Takes a Picture

Youth Lagoon

Place to fall in love
I wanted to smile
All the camels on the rug
A smoker's river Nile

Made an angel in the sand
What's an angel gonna do?
At the glory of her hand
At the glory of the moon

No one ever understands the way I move

Frozen in the world
Lucy takes a picture

Morphine on the spoon
I'm waiting to drown
At the glory of the moon
I'm calling to you now

Made an angel in the sand
What's an angel gonna do?
At the glory of her hand
At the glory of the moon

Frozen in the world
Lucy takes a picture
Frozen in the world
Lucy takes a picture

And we walk the railroad steel
And we walk the cold night Earth
And we catch a little breeze
When I catch you in the dirt
And I feel the autumn die
And the winter hold its keep
I can see it in your breath
I can taste it on your cheek

And we walk the railroad steel
And we walk the cold night Earth
And we catch a little breeze
When I catch you in the dirt
And I feel the autumn die
And the winter hold its keep
I can see it in your breath
I can taste it on your cheek
