

Confusion

Y&T

You can shave your head or raise the dead
It all comes down to you
Moralize and criticize
It's so easy to do

No solutions - No

Hey - your talking revolution
Tearing down the walls of the institutions

No solutions - No

So round and round and round we go
Were locked in this state
State of confusion
You call it revolution

Justify the sacrifice
Justify the pain
Victimize and glamorize
Your angry heart of hate

No solutions - No

So round and round and round we go
Were locked in this state
State of confusion
You call it revolution
