

Fast Ladies (Very Slow Gin)

Y&T

People always tellin' me I'm livin' too fast
They say "keep it up and your body won't last"
But the fast life's the one I got to lead, yeah
'Cause if I can't, baby, I don't wanna to be me

For me it's fast ladies
And very slow gin
I'm glad I'm still young
And my life's just beginning, just beginning

Wake up in the tickin' time the afternoon
Then I get ready to have my fun
I'm a wild crazy person and that's for sure
I'll be getting home early, anytime around four

For me it's fast ladies
And very slow gin
I'm glad I'm still young
And my life's just beginning baby, just beginning
