

I Wanna Cry

Y&T

I got something burning deep inside
Listen to me, I can make it right
Every time I see you, I...
Wanna take you down and come inside

I want you - so bad
Want you right now, so bad
So bad I wanna cry - I wanna cry

I'm the one, the one who wants you now
I'm gonna be the man that you will live for
I got a feeling that you'll be comin round
I can make it so sweet, somehow

I want you - so bad
Want you right now, so bad
So bad I wanna cry - I wanna cry

I'm the eyes that watch you in the night
I'm the lips that taste you - all right
You're destiny out in the dark
Until I get to you, sleep tight

I want you - so bad
Want you right now, I'm going mad
I want you - so bad
I want you right now - right now
So bad I wanna cry - I wanna cry
