

# Temptation

Y&T

Here we are, just you and I alone  
The passions high, we both know this wrong  
You've got a lover, and baby so do I  
Temptations burning deep inside

I close my eyes, and I can feel you next to me  
Oh so long, my secret fantasy  
You like the danger  
But I don't like the price we'll pay... I can't fight this

(Temptation...) Now I'm in the danger zone  
(Temptation...) You make it so hard to say no  
(Temptation...) Now just leave a good thing alone

It's not to late, to turn and walk away  
It's getting harder, the longer that you stay  
Don't lead me on girl, just turn your pretty head and walk away  
Your drivin' me insane

(Temptation...) I can't fight this  
(Temptation...) Oh, yeah yeah  
(Temptation...) Well I'm in the danger zone  
(Temptation...) You make it so hard to say no  
(Temptation...) Now just leave a good thing alone  
(Temptation...) 'Cause we both now this is wrong  
(Temptation...) Just turn your head and walk away  
(Temptation...) It's getting harder the longer you stay  
(Temptation...) Oh, don't lead me on don't lead me on  
(Temptation...) Cause your drivin' me insane  
(Temptation...) Oh, your drivin' me insane  
(Temptation...) Don't lead me on, don't lead me on  
(Temptation...) You're my secret fantasy
