

## Last of Our Kinds

YukseK

Last of our kinds, last of our kinds  
I heard of an isolated place  
I'll go wanna find out where my precious is  
But they say you are dangerous  
Strong bone sharp teeth like walrus  
You can scare the rooms off the sleepy town  
But my head you keep warm  
Ohhh, don't be alarmed  
In a secret far away land  
We're the last of our kinds  
I'll keep my mouth shut  
If you promise me you can be my King Kong  
I wanna tame the wild and prove to you  
We can survive in our kingdom  
Ohhh, don't be alarmed  
In a secret far away land  
We're the last of our kinds  
Keep low in the lightings will be seen  
Sweet love in the unexpectedness is dream  
But they say it's impossible  
Just stay with the safe in the known  
Don't be a fool it'll backfire  
But I've burn with desire  
Ohhh, don't be alarmed  
In a secret far away land  
We're the last of our kinds  
I'll keep my mouth shut  
If you promise me you can be my King Kong  
I wanna tame the wild and prove to you  
We can survive in our kingdom  
Ohhh, don't be alarmed  
In a secret far away land  
We're the last of our kinds  
I'll keep my mouth shut  
If you promise me you can be my King Kong  
I wanna tame the wild and prove to you  
We can survive in our kingdom  
Ohhh, don't be alarmed  
In a secret far away land  
We're the last of our kinds
