

24 Hours

Yuna

Waking up in my bed
Thinking maybe it's a new day
Thinking maybe I'll be okay
Linking up with all of my friends, yeah
Maybe it's a new day
Some Advil I'll be okay
Damn, my eyes are still red
You can see it through my shades, yeah

24 hours
Yeah I'm coming out of covers
Crying over what was ours
Boy, you know you got that power

I bet you feel so strong
I bet you knew it all along
When you met me
You loved me
You love me, love my energy

I was just doing my thing
I was chasin' all my dreams
Flawless hold my head up high
I wished you didn't interrupt my grind
But I just fell in love
Stopped the time
To feel your love

24 hours
Now I'm coming out of covers
Crying over what was ours
Boy, you know you got that power

Waking up in my bed
Thinking maybe it's a new day
Thinking maybe I'll be okay
Linking up with all of my friends, yeah
Maybe it's a new day
Some Advil I'll be okay
Damn, my eyes are still red
You can see it through my shades, yeah
