Bravest Everything

Yuna

Lovely, that's what you are to me
I love you when you're strong
I love you when you're weak

Lovely - you shine so bright
I love you when you're wrong
I love you when you're right

Sometimes they try to break you
But just be good to your heart
Sometimes they try to change you
Don't let them tear you apart

Run, running far away
I'll be here
And I got your back

When you are out there
Doing what you do best
You are my greatest everything
When you are out there
Doing what you do best
You are my bravest everything

And when I'm down
Keep on lifting me
Keep on lifting me up

Lovely, the world can be frightening
You feel a little scared
But you will get through it

Lovely, things can go wrong sometimes
Feel like you can't go on
Well, better things will come

Sometimes they're gonna leave you
The true ones will stay
Sometimes they wanna control you
But you will find your way

Run, run and don't look back
Have no fear
And I'll meet you there

When you are out there
Doing what you do best
You are my greatest everything
When you are out there
Doing what you do best
You are my bravest everything

And when I'm down
Keep on lifting me
Keep on lifting me up
