

Cigarette

Yuna

Hey, baby
I think you're something special
I know you feel the pressure
It's only in your mind, in your mind
Yeah, you're fine, babe

Hey, baby
I know it's been a while
It seems like time just pass you by
The sparkle in your eyes
No, no, it never die

It's not always easy
The road seems endless
It makes you wonder
If you're not made to last
(Not made to last, babe)
It's not always easy
When you're burning so fast, oh yeah
It makes you wonder
If you're just another
Cigarette
(A cigarette, babe)

Hey, baby
Been doing this a long time
You showed the way how things are done
Changed a lot of minds
Just being true to being you

It's not always easy
The road seems endless
It makes you wonder
If you're not made to last
(Not made to last, babe)
It's not always easy
When you're burning so fast, oh yeah
It makes you wonder
If you're just another
Cigarette
(A cigarette, babe)

I don't know what's wrong
Been doing this for too long
I'm done with the chase
I just need some space

I don't know what's wrong
Been doing this for too long
I'm done with the chase
I just need some space
