Cyanide

Yuna

Ride or die
In a flash
I'll be there for you
Cyanide in my flask
You don't have to ask

I'm with you
Fly me up high
Drop me off with
A broken parachute
Spend my money on the fact
I was going to spend the rest of my life
With you

Baby, I'll go down in flames, it's all good
Find a different name for it, it's all good
Bring our love back from the dead, if I could
If I could

I don't care if I'm lonely
I was meant to love you only
Put your love up on me
Even if you can't be mine, it's all good
Give me a portion of yourself, it's all good
You can move on and still have me, it's all good
So I don't care if you leave me
Just come back if you need me

In my car, headin' back
Driving fast for you
Broke my heart with a text
You're back with your ex

What's wrong with you?
No, you really don't care
That I'd set my world on fire for you
Borderline crazy
Yeah, you're bad for me
I want you

Baby, I'll go down in flames, it's all good
Find a different name for it, it's all good
Bring our love back from the dead, if I could
If I could

I don't care if I'm lonely
I was meant to love you only
Put your love up on me
Even if you can't be mine, it's all good
Give me a portion of yourself, it's all good
You can move on and still have me, it's all good
So I don't care if you leave me
Just come back if you need me
Just come back if you need me
