

# Enough

Yuna

Tell me who I need to be  
So I can get some clarity  
If I can get your attention  
I just want your affection  
You don't look at me like you really see me

Tell me what I need to do  
So I can just get through to you  
You say I'm your favorite girl  
But I don't even mean the world to you  
I got diamonds on my finger but it lingers in me

Are you in love?  
In love  
You can try to hide and lie  
But I can see it in your eyes  
Am I enough?

Yea yeah oh  
Mmmm  
Yea oh oh  
Mm hmm mm  
Hmm hmm hmm hmm hmm hmm hmm hmm

Not trying to have an argument (Argument)  
Not trying to fake a compliment (No, no, no)  
'Cause I can live my whole life with you  
The reason was so fast from you  
I think I need more time just to find out if really you are

In love oh oh oh  
In love oh oh ooh  
You can try to hide and lie  
But I can see it in your eyes  
Am I enough?

Baby, are you in love?  
Yeah, are you in love? (Oh oh ooh)  
You can try to hide and lie  
But I can see it in your eyes  
Am I enough?
