

## Firework

Yuna

Are you happy where you are now?  
Dangling from the stars  
Worry Free  
I used to be just like you

Is she all that you asked  
Park your greed far away  
You are under a microscopic lens  
I am seeing you in different ways now  
I was a fool

Falling into hole  
Running into a web  
You could bet  
When I see you on the other side  
With someone else  
I just died.

I am like a firework  
Creating masterpieces in the sky  
Thank you for watching  
Thank you for standing by  
While I burn  
I was a fool

Falling into hole  
Running into a web  
You could bet  
When I see you on the other side  
With someone else  
I see you on the other side  
With someone else  
I see you on the other side  
With someone else  
I just died.  
I just died.
