

# Make Believe

Yuna

Thought it was the chemistry  
Heat and light  
Love equation, you and me

Unfaithful  
Messed up the math now  
Illogical  
Down on my knees  
Yeah, I'm on the floor  
Self-destruct in 3, 2, 1

You give me a make believe  
Just to kill  
Illusion, love potion  
Just a make believe (Just to kill)

I can see the science  
Hey, in your eyes  
Bright when you are lying to me

Deception  
Emotion is bad religion  
Unsure of what I believe in, uh  
You were my heaven, babe  
(You were my heaven, babe)

(Oh)  
You give me a make believe  
Just to kill  
Illusion, love potion  
Just a make believe (Just to kill)

Still, I  
I can't let it go  
Still, I'm  
Devoted to the core

(Oh)  
You give me a make believe  
Just to kill  
Illusion, love potion (Love potion)  
Just a make believe  
You give me a make believe  
Just to kill  
Illusion, love potion (Love potion)  
Just a make believe (Just to kill)

Just a make believe
