

Rescue

Yuna

She thinks she's all alone and all her hopes are gone and so I wrote this song so she can move along. Things were bad. She was in despair. Things were bad and you were never there, but things were bad, she came up for air. She said a little prayer, she found herself. Yeah she's got light in her face, she don't need no rescuing she's okay.

Yeah, she's got life in her veins, she don't need no rescuing she's okay

No S.O.S. needed, no rescuing, she's fine out there.

No S.O.S. needed, no rescuing, she's fine out there.

Yeah, she's got life in her veins, she don't need no rescuing, she's okay.

She looks into the sky and all her tears are dry she kiss her fears goodbye. She's gonna be alright. Things were bad. It was beyond repair. She was scare, she couldn't handle it. Things were bad, but now she's glad. Can't you tell that she's walking on air?

Yeah, she's got light in her face, she don't need no rescuing, she's okay. Yeah, she's got life in her veins, she don't need no rescuing, she's okay.

No S.O.S. needed, no rescuing, she's fine out there.

No S.O.S. needed, no rescuing, she's fine out there.

Yeah, she's got life in her veins, she don't need no rescuing, she's okay.

That girl is you yeah and that girl is me, that girl is stronger than the raging sea. That girl is you yeah and that girl is me, that girl is stronger than the raging sea.

Yeah, she's got light in her face, she don't need no rescuing, she's okay. Yeah, she's got life in her veins, she don't need no rescuing she's okay.

No S.O.S. needed, no rescuing, she's fine out there.

No S.O.S. needed, no rescuing, she's fine out there.

Yeah, she's got life in her veins, she don't need no rescuing, she's okay.
