

# Rocket

Yuna

You're like a rocket in my mind  
That's waiting to define everything about me no one knew  
And you stick like a poster on my wall  
As if you don't wanna move

I got no money in my pocket  
Nobody to rock with but you  
But you know me I don't seem to roll  
Somehow we managed to get through

People come and people go  
And people gonna come some more  
They pick a fight  
But it's alright  
At least I get to see you tonight  
Tonight

I can't believe we almost got famous for nothing baby  
You came the last minute of panic to save me  
I can't believe we almost got paid for nothing baby  
Cause even if they go away  
I got the feeling that you're gonna stay

It's like I'm picking up a miracle off the sidewalk  
Like kitten in the box  
Don't contemplate yourself, you say  
Cause you're all you've got  
I'm a sad and pathetic  
At the same time unlike you  
Baby you've got no move  
And you think I'm good at what I do

People come and people go  
And people gonna come some more  
They pick a fight  
But it's alright  
At least I have you home tonight  
Tonight

I can't believe we almost got famous for nothing baby  
You came the last minute of panic to save me  
I can't believe we almost got paid for nothing baby  
Cause even if they go away  
I got the feeling that you're gonna stay

You're like a rocket in my mind  
Waiting to define everything about me  
You're like a poster on my wall  
Sticking, don't wanna fall  
As if you don't wanna move

You're like a rocket in my mind  
Waiting to define everything about me  
You're like a poster on my wall  
Sticking, don't wanna fall

I can't believe we almost got famous for nothing baby  
You came the last minute of panic to save me  
I can't believe we almost got paid for nothing baby  
Cause even if they go away  
I got the feeling that you're gonna stay

You're like a rocket in my mind  
Rocket in my mind  
You're like a rocket in my mind  
Rocket in my mind  
You're like a rocket in my mind  
Waiting to define  
You're like a rocket in my mind  
You're like a poster on my wall  
Poster on my wall  
Sticking, don't wanna fall  
You're like a rocket in my mind  
Rocket in my mind  
You're like a rocket in my mind
