

(They say karma comes)
(When you least expect it)
(Hope this threw you off)

Somebody's gonna end up breakin' your heart
I hope that I'm there to watch you go down
It'll be funny when you crumble under all of the pressure
Man, I hope that she stretch it all out, make you go through
The talkin' phase, the gettin' to know you
All the way to the, "I think I like you"
Until it builds to "I gotta hold you in my arms forever"
And right at the moment, you think it's all fallin' together
This what she tell you

"I never fucked with you like that in the first place
And this shit never mattered so why you hurt, bae?"
Oh, yeah, I hope she end up doin' you dirty
I hope she end up doin' you dirty, I hope she tell you
"We was never datin', we was just chillin'
So can you please try to contain all your feelings?"
Oh, yeah, when she break you down, I hope that you feel it
The same way I did, I guess karma's a real bitch

One day, you're gonna look up and be pissed
That you really tried to do the baddest bitch like this
I'll be waitin' on the moment like kids at Christmas
And you gettin' what you deserve's the only thing on my wish list
I wish, hope, and pray for that day
I pray the next time you drink Hennessy, you try to laugh and that sh
it go out your nose
And burn your sinuses so bad that you can't see for six days straight
The bitch you think you love gon' shatter you and I can't wait

Until karma comes for you (Said, I can't wait)
'Til karma comes for you (Said, I can't wait 'til)
'Til karma comes for you
And I can't wait 'til karma whisper in your ear and she say

"I never fucked with you like that in the first place
And this shit never mattered so why you hurt, bae?"
Oh, yeah, I hope she end up doin' you dirty (Doin' you dirty)
I hope she end up doin' you dirty, I hope she tell you
"We was never datin', we was just chillin'
So can you please try to contain all your feelings?"
Oh, yeah, when she break you down, I hope that you feel it (I hope th
at you feel it)
The same way I did, I guess karma's a real bitch (Yeah)

Yeah, ooh, no
Yeah, yeah, yeah
