

Control

Yung Bae

You just take one touch and I feel that rush
From my head to toes I feel it in my bones
You so powerful you so magical when you take control
Yeah

Take control
Take control
Take control
Take control

When you're only gone in the moonlight
When you just on the brink of new life
And the feelings have you feeling just right
Baby tonight
Is it tonight?

Take control
Take control
Take control
Take control

Take control

You just take one touch and I feel that rush
From my head to toes I feel it in my bones
You so powerful you so magical when you take control
Yeah

Take control, yeah
Take control, yeah
Take control, yeah
Take control, yeah
Take control, yeah
Take control, yeah
Take control, yeah
Take control, yeah
