L-O-V-E

That's how you spell what you mean to me  
Everybody

L-O-V-E

That's how you spell what you mean to me  
Everybody

Clap your hands and stomp your feet

L-O-V-E

That's how you spell what you mean to me

Everybody

Clap your hands and stomp your feet (hey, hey)

Pull me in, pull me close, give me love, hold me tight  
Hold me tight right now (right now)  
Put my phone down, look me in the eyes  
Make the most of the night right now (right now)  
I cannot complain, I'm enamored with your brain  
Got my heartbeat going bang, I don't got no time for shame

Its the night that we get busy  
Turn this city upside down  
Until it breaks the clouds and hits the ground, yeah  
This right here's just enough

L-O-V-E

That's how you spell what you mean to me

Rejoice, the fire in my voice

This feeling ain't a choice, the boy is overjoyed

I got it I know it, flex popping I show it

Even in darkness little shorty be doing

The love is overflowing, I toast, look at us

The growth is worth showing, diamond out the dust

Coast to coast and state to state

All around the world, it's earth gang

Its the night that we get busy

Turn this city upside down

Until it breaks the clouds and hits the ground, yeah

This right here's just enough
