

Party In Me

Yung Bae

You are now listening to Bae

There is a place up the street
Where the people look so fine
And the music can't be beat
Everybody's dancin'
Singing songs and romancin'
Meet me there at midnight and my dreams will be complete
You bring out the party in me
If we keep our bodies moving
Then the morning light we'll see
Dancing our sorrows away through the night
If you keep the party in me then we're sure, sure, sure, sure
Right
Don't look so tired and blue
You don't have to be alone cause I love to be with you
Drop your tears and sorrows you can leave them behind
Cause I'm about to make you move with a better state of mind
You bring out the party in me
If we keep our bodies moving
Then the morning light we'll see
Dancing our sorrows away through the night
If you keep the party in me then we're sure to get it right
We're sure to get it right
Don't you know that you bring out the party in me
If we keep our bodies moving
Then the morning light we'll see
Dancing our sorrows away through the night
If you keep the party in me then we're sure to get it right
We'll get it right
If we keep our bodies moving
Then the morning light we'll see
Dancing our sorrows away through the night
If you keep the party in me
I need to, need to, need to, need to,
Need, need, need, need, need, need, need, need
Bae
Get it right
Oh I know we'll get it right
Oh I know we'll get it right
Oh with the party in me
We're sure to get it
Get it right
Keep the party in me
Ooooh
