Yung Bae

Sunlight
Sunlight (you're my sunlight)

Walking in the sunlight
Down that avenue
And I could make it oh so happy
If I could just get next to you (yeah yeah yeah)
All the nights I sat alone
Had visions of you (yeah yeah yeah)
You're in my dreams, you're in my life
You're my sunlight

Sunlight
Shine on me baby (yeah)
Sunlight (hey babe)
You're my sunlight (you're everything I need)

Kept me in a daze
He keeps me in a daze
For what I'm going to do
I'm going to be there in your home now
Make sure that sunlight gets to you (yeah yeah yeah)
Winters been cold (winters getting cold)
Chilled to the bone
But when I look into your eyes
I see sunlight and summery love

Sunlight
Shine on me baby (yeah)
Sunlight
You're my sunlight (you're everything I need)

Your love keeps getting better
As the days go by (days go by)
I got to keep you near girl
In my heart you'll never die
Just the day I found you girl
I said that you were mine
I have loved you for every day
Every day, I'm walking in sunlight

Sunlight
Shine on me baby (yeah)
Sunlight
Your my sunlight (oh you need to shine all over girl)
Sunlight
I need you everyday
Sunlight
Sunlight

Sunlight baby
I need your loving baby
Everything's shining
Come on and give it to me
