

Touch The Sky

Yung Bae

They can't tame the lion
I know that they all be tryin'
But no way they're gonna get at me
'Cause I just keep on shining
And twenty-four seven grinding
No, I ain't here to make enemies

Don't let them get you down
You got that higher ground
Just take a look around
(Go on, take a look around)
And when they're talking loud
Let music drown them out
Love your electric self
(Love your electric self)

Oh, give it a try
Know that you don't gotta run
You're ready to fly
Don't be scared to touch the sun
Don't be scared to touch the sun
You know you can touch the sun

You know you can touch the sun
You know you can touch the sun

They stay in a hurry
But me, I ain't getting worried
About anything but you and me
They say we ain't nothing
So let's turn into something
That's bigger than they ever seen

Don't let them get you down
You got that higher ground
Just take a look around
(Go on, take a look around)
And when they're talking loud
Let music drown them out
Love your electric self
(Love your electric self)

Oh, give it a try
Know that you don't gotta run
You're ready to fly
Don't be scared to touch the sun
Don't be scared to touch the sun
You know you can touch the sun

You know you can touch the sun
Fly, don't be scared to touch the sun
Don't be scared to touch
Don't be scared to touch
Don't be scared to touch
You know you can touch the sun
Don't be scared to touch the sun
