

Ayy, ayy, we got some ice
We got the drank, real drank, talking 'bout, that nigga double
cup
(Welcome to 1st Class)
Some ice in it

I just been having dreams, nightmares of the bottom
I just been sipping codeine, let go of my problems
I just been countin' like a money machine, bitch, I'm bossing
I just been doing this shit for my team, we so awesome
I just ride with dirty Glocks with beams, slide and toss 'em
I just put a bad bitch in McQueens as soon as I caught her
I just, nigga think 'bout sliming me, triple cross him
I just spent twelve-hundred on the teeth, bitch, I'm flossing

Know I'm having motion, I can show you I'm the one
Way too paranoid, that's why I always got a gun
Do this for my mama 'cause we really came from nothin'
And I'm on that taking shit, I'm my daddy's son
Went and took my granny away, that shit, it had me numb
Granny called me, told me that, "You made it," she ain't come
Wish you could've waited so I could move you out the slum
I just wanna bless you, all your life, you had it rough
I can't trust these niggas, keep my finger on the trigger
I drink pure promethazine, can't even use my liver
I just popped like three RPs, now I feel terrific
These streets took my heart from me (These streets took my heart
from me)
