Making love to you
Feels so strange now
Cause we done got so distant
And I just don't know how
But I know that he don't make you feel
How you supposed to feel
And I'm hoping you can see this clearly
Just call my phone when you in my city

Cause I need you and you need me
Head on my chest I feel you breathing
But fuck me good don't tease me
She said I can show you a few things so watch me
Pop, pop, pop, pop, pop, pop it just like this
