

Easy

Yung Bleu

Kisses on your forehead in the morning
Roses sit bedside while you yawning
I've been too busy ignoring
All of these calls coming to my phone
Girl, I gotta get back home lately to my lady
And I know I've been driving you both crazy
But, girl, you know I'm changing, girl, I'm changing
I just need more time with you, baby

You don't make it easy
Don't make it easy, oh no, you don't
Don't make it easy
You don't make it easy, but I, but I
I can't help myself 'cause I'm too crazy 'bout you
And you a one of one, don't wanna move without you
You don't make it easy
You don't make it easy on me

It might not be easy to keep you
You know what I'm capable of
Her intuition see the evil in people
And you know when I'm creeping
You know when I sneak in I give you the freak on the weekend
In you're water, I'll dive in the deep end
Give you something to believe in
She say, "Don't make it easy," I wanna go hard, have you scream
ing
I want you to suck it like you teething, call you my baby for a
reason
I been taking narcotics to numb me, I remember when you loved m
e
I remember I was drug-free, but you don't make it easy

You don't make it easy
Don't make it easy, oh no, you don't
Don't make it easy
You don't make it easy, but I, but I
I can't help myself 'cause I'm too crazy 'bout you
And you a one of one, don't wanna move without you
You don't make it easy
You don't make it easy on me
