

## Fire Inside

Yung Bleu

Searching for someone  
To get you through the night  
If tomorrow never comes  
Just look me in the eyes  
And climb into my arms  
Ouu girl don't look surprised just come dance with me (Dance with me)

Do you know you got that fire  
Ouu you got that fire inside (ouu you got that fire inside)  
Do you know you got the power  
Ouu you got the power to drive  
To drive me wild (wild)  
Drive me crazy baby we'll go for miles

To drive me wild (wild)  
Drive me crazy baby we'll go for miles  
To drive me wild  
To drive me wild (drive me)

Wasn't looking for a thing  
When you came around  
Didn't leave a trace  
Didn't make a sound  
But I need something more now  
Yeah I need something more now

Do you know you got that fire  
Ouu you got that fire inside (ouu you got that fire inside)  
Do you know you got the power  
Ouu you got the power to drive

To drive me wild (wild)  
Drive me crazy baby we'll go for miles  
To drive me wild (wild)  
Drive me crazy baby we'll go for miles  
To drive me wild  
To drive me wild  
To drive me wild (drive me wild)
