

I been putting work in all week long  
Now I'm turnt up tryna get me some  
Drugs, money, pussy and beer

Found out I'm not the only one  
So I curved that bitch and I moved right on to  
Drugs, money, pussy and beer

Just one of those days, one of those weeks (damn)  
First things first, sex tape got leaked (golly)  
40 million people watching me clap cheeks  
At least I laid it down, might have to re-tweet

Dope, cash, coochie and drank  
Hit the liquor store on the way to the bank  
Call my plug, just had an epiphany  
Let's add one more to the holy trinity

I been putting work in all week long  
Now I'm turnt up tryna get me some  
Drugs, money, pussy and beer

Found out I'm not the only one  
So I curved that bitch and I moved right on to  
Drugs, money, pussy and beer

Aye, next thing I know, coochie on my breath  
I got every drug in my system 'cept meth  
Ten 30-racks in the fridge  
Boutta go fishing, might catch me a bitch

Meds, guap, nookie and juice  
Sipping moonshine while I'm stacking my loot  
Get some party favors then I knock me some boots  
.45 backshots, fuck .22s

I been putting work in all week long  
Now I'm turnt up tryna get me some  
Drugs, money, pussy and beer

Found out I'm not the only one  
So I curved that bitch and I moved right on to  
Drugs, money, pussy and beer

I said  
Beer me, homie  
Crack open that 30-rack  
I said  
Cheers me, homie  
I don't care if it's wine or crack  
Wanna get shit faced  
Wanna stand up on a table  
D.M.P.B.  
That's my old fucking faithful  
Beer me, homie  
Beer me, homie

I been putting work in all week long  
Now I'm turnt up tryna get me some  
Drugs, money, pussy and beer

Found out I'm not the only one  
So I curved that bitch and I moved right on to  
Drugs, money, pussy and beer
