

## how do you dance?

yung kai

Are you dreaming?  
You ask me outside  
And yes, you were wearing all white  
Hope you don't, you don't mind  
Hold you close and you held me tight  
Felt your lips when I close my eyes  
I know we're out of time

But maybe you can teach me how do dance  
Hold you like a flower in my hands  
There's nobody else just me and you and the moon  
Maybe you can fall me for me again  
We go back to lovers in the end  
There's nobody else for me, but you

If you fall for someone else  
You should know you're still my world  
Hope you don't, you don't mind  
Hold you close and you held me tight  
Felt your lips when I close my eyes  
I know we're out of time

But maybe you can teach me how do dance  
Hold you like a flower in my hands  
There's nobody else just me and you in the ballroom  
Maybe you can fall me for me again  
We go back to lovers in the end  
There's nobody else for me, but you

Maybe you can fall me for me again  
We go back to lovers in the end  
There's nobody else for me, but you
