

# 3D Spaceship

Yung Lean

Sadboys ecstasy  
Rollin up blunts, get mine for free  
Got that candy and that ketamine  
MDMA and that mescaline  
Yellow powder methamphetamine  
Got that opium and that angel dust  
All these girls wanna roll with us  
Yung Lean straight up penetrating  
Intoxicated, medicated  
I stay so motherfucking stupid faded  
Fuck that ho in the pussy and stay there  
Damn I'm on this Black Russian  
I'm tripping off this liquid acid  
Blunt's passing, I just had it  
I just had it  
I just had it

I'm not human, I'm just Lean  
3D spaceship, I'm just me  
Let me save you, let us be  
Shawty I just wanna come clean  
I'm not human, I'm just Lean  
3D spaceship, I'm just me  
Let me save you, let us be  
Shawty I just wanna come clean

Yung lean, young man, freestyle  
Bitch my wrist got a fistful  
Of diamonds  
Inside that cash are my motherfucking initials  
Lean shot, that bitch flow  
Yup cause I'm 'bout to spit gold  
I hop out the Lamborghini  
Pupils so big you can't even see me  
ADHD, LSD  
All these hoes want my peepee  
In a jar where they can save it  
I'll fuck you if you take off your bracelet  
And then I'll fuck your face off  
I'm John Travolta and you're just a little dick chaser  
I'm the fucking dictator  
Sadboys ecstasy, rollin' up blunts, get mine for free
