Yung Lean

Got robotic instincts like I'm Bender  
Futurama spaceship box of syrup in the blender  
Reaching for the stacks, long arms man, Slender  
Riding round town, blowing dough, money spender  
We all get lost sometimes, but I surrender  
Trying to spend the night with you, mark my calendar  
Leandoer's still polo'd down like a settler  
Freezing moon, started mayhem, nothing's matter

Gotta check the price  
Rubies on my eyes  
Green gate, Colgate, haunted all my life  
Something ain't right  
I smell that in the night  
Weird phone calls, do you still fantasize  
Had to check the price  
Rubies on my eyes  
Green gate, Colgate, haunted all my life  
Something ain't right  
I smell that in the night  
Weird phone calls, do you still fantasize

Wintertime  
Rain on my blood  
Blood, blood, blood rain falling down the sky  
I see so clearly now

I'm scared when you fall, my magazines, you're the star  
Not far  
I'm scared when you fall  
My magazines, you're the star  
We cannot fall  
She feel asleep on my arm  
I'm scared when you fall, my magazines, you're the star  
We cannot fall  
She feel asleep on my arm  
On my arm, on my arm, on my arm, on my arm, on my arm  
She fell asleep on my arm  
On my arm, on my arm, on my arm, on my arm, on my arm  
She fell asleep on my arm  
I'm scared when you fall, my magazines, you're the star  
We cannot fall  
She fell asleep on my arm
