

Blinded

Yung Lean

All this ice leave me blinded
Five star life, stay reminded
Bitch I done grinding
I pull up with designer if you with it lean behind it
All these lights leave you blinded
Five star life, stay reminded
Bitch I done grinded
I pull up with designer if you with it lean behind it

Bitch I'm cruising down the black lodge with black wrist watch
Got a bad bitch sipping scotch popping tick-tocks
Pull up with a black car gotta hit the snack bar
Mitsubishi cruising down the lanes like its NASCAR
They say I'm too bizarre, but I done make it this far
Might smoke a fat jetpack out to Myanmar
Feeling like a movie star, counting stacks with my boys in a su
shi bar
Uh no you won't get this far, bitch I bet you know who we are
Wake up and I see dark, never let the dogs bark
Leave you looking like a question mark
I be stuntin' overseas, all my boys ride for lean
Bands to the ceiling, smoke away all my feelings
I be, I be getting rich bitch
I just came to say
Left an addict, I guess I meant that I'm an addict
You can't spit, my money standing looking like cabbage
Ashes steady taking trips living lavish

All this ice leave me blinded
Five star life, stay reminded
Bitch I done grinding
I pull up with designer if you with it lean behind it
All these lights leave you blinded
Five star life, stay reminded
Bitch I done grinded
I pull up with designer if you with it lean behind it
