

# Changes

Yung Lean

There  
Saw you standing there  
Over on the street  
On the other side of me

Changes they come, changes they go  
Life goes over and over again  
Get money or die, die tryin'  
I ain't got nothing left to do  
I said it all, yeah, I done it all  
Fuck it, we only live right now  
Right now  
Get money

Saw you standing there, right at the top  
Top of the street, I know it was you  
I was only there, just for a moment  
You could feel the tension in the air, it's like a fume  
I was all alone, I was all alone  
I could've walked away with anyone  
With anyone  
But I chose you, yeah, I chose you  
'Cause I can see something in you  
Something special  
Something dreams are made up of 'cause

Changes they come, changes they go  
Life goes over and over again  
Get money or die, die tryin'  
I ain't got nothing left to do  
I said it all, yeah, I done it all  
Fuck it, we only live right now  
Right now  
Get money

When I saw you  
It felt so new, so new  
Something special  
Something dreams are made up of 'cause  
When I saw you  
It felt so new, so new  
Something special  
Something dreams are made up of 'cause  
When I saw you  
It felt so new, so new  
Something special  
Something dreams are made up of 'cause  
When I saw you  
It felt so new, so new  
Something special  
Something dreams are made up of 'cause

Changes they come, changes they go  
Life goes over and over again  
Get money or die, die tryin'  
I ain't got nothing left to do  
I said it all, yeah, I done it all

Fuck it, we only live right now  
Right now  
Get money
