Fell out of luck
In a hole
Now I'm stuck
In a place
With no air
Without warmth
Without care
Without

Fell out of luck
In a hole
Now I'm stuck
In this place
With no air
Without warmth
Without care
Without

Fell out of luck
In a hole
Now I'm stuck
In this place
With no air
Without warmth
Without care
Without

All I'm seeing (is a dark feeling)
Without
Fell out of luck
In a hole
Now I'm stuck
In this place
With no air
Without warmth
Without care
Without

Find me find me find me find me in a cabin
Sapphire, amber emeralds red diamonds dancing
I threw my three wishes away like Aladdin
Without hope without love your without panic
Everything adds up to this moment like we planned it
I leave the world leave my body leave it faster
Your voices echoes in the cave through the casket
Step out the Uber see the flash and see the cameras
Inside there's a light that's abandoned
Fire and love wash over me
Fire and love wash over me
Fire and love wash over me
Fire and love wash over me
Fire and love wash over me
Fire and love wash over me
