

# Fallen Demon

Yung Lean

I'm addicted to the feeling, I can't get it out  
I feel sick into the ceiling, hurt to see my life  
I go in for my sesh, shawty, get it wet  
So many fires in my grave, feels like on a jet  
So many engines, like my diamonds need a serviette  
They didn't let me out for three weeks  
Feel like a vet  
I'm addicted to the feeling, I can't get it out  
I feel sick into the ceiling, hurt to see my life

Woodgrain dripping, finger licking, polo dime  
Cider sippin', slide the coupe and switch it out  
Stockholm city, dungeon with me  
We doin' dirt, blowing smoke  
Countin bands on the low  
Smokin earth 'round the globe  
With the team from the snow  
Doin' dirt, blowing smoke  
Countin bands on the low  
Smokin earth 'round the globe  
With the team from the snow  
Draped in fur like a bird  
I got gold 'round my toes  
Doin' dirt, Gucci skirt  
Shawty down where I go  
Woodgrain gripping henney sippin  
Vodka redbull eating chicken  
Say we wicked like the witches  
I got love for all my bitches (Lean)  
And I got love for all my bitches

I'm addicted to the feeling, I can't get it out  
I feel sick into the ceiling, hurt to see my life  
I go in for my sesh, shawty, get it wet  
So many fires in my grave, feels like I'm on a jet  
So many engines, like my diamonds need a serviette  
They didn't let me out for three weeks  
Feel like a vet  
They didn't let me out for three weeks  
I feel like a vet  
I got fire down I'm burnin running through my vest

Ice, woke, neon diamonds  
Get it faster with my guidance  
Hell, lose, snow alliance  
Love comes first, hate comes silent  
No hate just faith  
Live my life through ultra violence  
Big gates pearly snakes  
Yeah, they sneak up, up behind me, yellow lie  
Rhinestone with my team, we won't come lightly, slightly done  
She [?] up  
Big Hummer big yellow trucks  
Falling demon through my guts  
Feel my lungs, they giving up  
Yellow lie 'cause yellow ducks  
Big alligator catching bucks

Gave up on me, don't give a fuck  
I come through and slice you up
