Yung Lean

Way up  
Way up  
Some up

I'm rollin' blowin away, the days are the same  
10 pills in my pocket, I keep blowin' my faith  
Rubber, rollin' down the window, white widow, fuck fame  
Forest fire, climbin' higher, real life, it can wait  
I'm rollin' blowin away, the days are the same  
10 pills in my pocket, I keep blowin' my faith  
Rubber, rollin' down the window, white widow, fuck fame  
Forest fire, climbin' higher, real life, it can wait

I guess I gotta stay down, stay down, stay down  
I guess I gotta stay down, stay down, stay down  
Bitch, I'll be around, around, around forever  
I'll be around, around somewhere up there  
Na-na-na-na-na, I just saw the sign, I seen the world collide  
I lost count of all the times, she ask me why  
Ma-ma-magic in her eyes, Leandoer's paradise  
All my, all my, boys off drugs, I've been lost in this life  
Fire flames, color red, 'member recent times  
Stacks of shoes, got soo many, don't really the 'mount  
When it's hot outside, I copped me some ice  
Travel in disguise, I see trouble in her eyes  
Mix it with fanta, not with sprite, wings from Calvin Klein  
Forever i'll fly, all the times I remind, cause someway...  
Someway, some how, I'm good in the sky  
I got a white shirt and a tangerine belt  
In a winter where the snow don't melt  
Cause I keep to myself, cause I keep to myself  
Rollin', rollin', rollin', I know, ah

I'm rollin' blowin away, the days are the same  
10 pills in my pocket, I keep blowin' my faith  
Rubber, rollin' down the window, white widow, fuck fame  
Forest fire, climbin' higher, real life, it can wait  
I'm rollin' blowin away, the days are the same  
10 pills in my pocket, I keep blowin' my faith  
Rubber, rollin' down the window, white widow, fuck fame  
Forest fire, climbin' higher, real life, it can wait  
I'm rollin' blowin away, the days are the same  
10 pills in my pocket, I keep blowin' my faith  
Rubber, rollin' down the window, white widow, fuck fame  
Forest fire, climbin' higher, real life, it can wait

[?] love the sign, I've been through 'em nights  
Fallin' from the heights, I'm a dog, about to bite  
All my dogs gon' ride tonight, I got armor I'm a knight  
I got stars up on my knife, I got stars up on my knife  
Remember when I step on Nikes, I don't pay for that shit now  
Any motherfucker tryna tell me shit now  
Back down, back down, you don't wanna get it now  
Move around the streets like the city is on fire now  
Fire house, money count, shawty, I'm on fire now  
Greygoose, blowin' pineapples in a cyber town  
Higher down, fire crown, Leany get 'em by the ounce
