

# Forever Yung

Yung Lean

(Mm) Wow  
(Mm) Ah  
(Mm) Ah  
(Mm) Ah, ah

'Cause I wonder where you at-at-at  
Wonder where you go  
Girl, inside that mask of yours-yours  
Just take it off and let it show  
Love is hard to find, I know-know  
Sometimes life is just a joke  
But you stay inside the joke  
'Cause you just play it like a show

'Cause you see me up, and you see me down  
And you see me rise and come up again  
Don't have to watch the world in flames  
The mask will break, but not your name  
Your name will echo through the rain  
I love the glory, I love the pain (Let's go, let's go, go, go, go)

I walk around in the Matrix  
All your talking can't save shit  
Face what you did, just face it  
Too late to have this conversation  
Red pill, blue pill, it's all the same  
If you take it away, wouldn't dare me to change (Ah)  
Yeah, but your love could have changed (Ah)  
If you leave, I will stay, I still love you today

'Cause I wonder where you at-at-at  
Wonder where you go  
Girl, inside that mask of yours-yours  
Just take it off and let it show (Show)  
Love is hard to find, I know  
Sometimes life is just a jo-joke  
But you stay inside the joke  
'Cause you played it like a show (The shit)

'Cause you see me up, and you see me down  
And you see me rise and come up again  
Don't have to watch the world in flames  
The mask will break, but not your name  
Your name will echo through the rain  
I love the glory, I love the pain

'Cause you see me up, and you see me down  
Yeah, you see me rise out the ashes, and-  
Like a phoenix, I will come up and rise  
Just take off your mask, yeah, my only friend

Everything is forgiven  
In the dark, in the dark (In the dark)  
Take off your mask just once  
Know the world is filled with bad luck, and I-  
I feel it, yeah, I feel it, yeah, I feel, feel, feel, feel, feel, feel for you

See me down, you see me come up  
Feels like the world is not enough for you  
(Truck filled up with coke, White Air Ones)  
Feel it, yeah, feel it, yeah, feel, feel, feel, feel, feel, feel for you  
Truth is I don't wanna see the sun  
Riding 'round the city and they sayin', "What's up?" (What's up?)  
Green pack came in and made the whole room stop  
Can't stop the feeling when the words just come  
When I can't express myself I feel so messed up  
I'm stuck in the spiral and I can't get up  
Shut the world out, angels, fairies show up  
I don't care about the money but I make it show up  
And I make it show up, yeah, but I make it show up, yeah  
I don't care about the money but I make it show up
