Yung Lean

(Take it all away, ayy)

Friday the 13th, you with the maniacs  
We the wave, make your sister's [?] rap  
We both fucked up, I had to take you back  
I ain't really sleeping, I take baby naps  
Won't make it home, won't make it back  
Free your favorite blow, we brought the 80's back  
R.I.P. Barron, for you we blowin' sacks  
Can't leave my boys, yeah I got your back  
Lean need a birch, shawty bringing stacks  
Haunted house, yeah we on a different path

Ice on froze, head on freeze  
Still sittin' on fours  
Lemonade and speed  
Baseball bat at award ceremonies  
New rings on, on new destiny  
Body out dead in the back, call me  
Chandelier ice castle, on E  
Ice on froze but my head on freeze  
Still sittin' on fours  
Lemonade and speed

Dark night, angels dirty when I need a plan  
I pop, with them birdies, been fly like that  
2040, me and gang Gotham City land  
Wanna find the time, be with you and just hold your hand  
Leandoer AKA the crow, flying rats and sand  
When I try to be carefree I just end up sad  
21, almost 22, missions on the map  
Light blue jewelry, 3-6 wrist tan  
360 worldwide, put Stockholm on the map  
Sometimes nightmares don't just end like that  
Love will find us in the end, but I don't really see that  
Love will find us in the end, but I don't really need that

Ice on froze, head on freeze  
Still sittin' on fours  
Lemonade and speed  
Baseball bat at award ceremonies  
New rings on, on new destiny  
Money all day, back, call me  
Chandelier ice castle, on E  
Ice on froze but my head on freeze  
Still sittin' on fours  
Lemonade and speed

I crush rock, like they crush on dreams  
I'm crashing if you go in between  
Me and the gang, I get green cash like the kush  
Walk out of hell, all fresh lightning
