

# Hocus Pocus

Yung Lean

All I roll is potent, we stay golden  
We gone hocus pocus, they think they know us  
I'm flyin' in a lotus, in a range rover  
Is my life over?

Take, take, take, take  
Take control of, take control of me  
Take control of lean, take control of me  
All I roll is potent

White powder like a hill, take control of me  
When it hits my body, you know there's no stoppin' lean  
I don't like red, paint the roses green  
Put a price up on my head, there's no controllin' me  
I thought I was dead, but I'm livin' free  
Walk up in the spot, bitch, it's SBE  
Stack the money green, turn it into leaves  
Six Air Force on my feet look like a centipede

All I roll is potent, we stay golden  
We gone hocus pocus, they think they know us  
I'm flyin' in a lotus, in a range rover  
Is my life over? is, is it over?

Never will I rise to fall, I've seen that light from very far  
I pack my bag, I pack my bag, bet you could never match the stars  
Keep my boys 'round, they watch my back  
Follow the lights, we in the cab  
Hash is from uzbekistan, I ball like asics 'cross the land  
You see my face, I see your hands  
She don't want to understand, but I have a plan  
Mixing alcohol and xans, when I'm with my gang  
You can find me where I stand, Disney wonderland  
I don't ever get attached, doesn't work like that  
Doesn't work like that  
Black bracelet, never show faces  
Two pills runnin' round in the matrix  
Never show faces, never show faces  
Two pills runnin' round in the matrix

All I roll is potent, we stay golden  
We gone hocus pocus, they think they know us  
I'm flyin' in a lotus, in a range rover  
Is my life over? is, is, it over?  
All I roll is potent, we stay golden  
We gone hocus pocus, they think they know us  
I'm flyin' in a lotus, in a range rover  
Is my life over? is, is it over?  
Lotus, ranger rover, is, is, it over?
