

# Hunting My Own Skin

Yung Lean

We were on the throne, living on our own  
Hunting my own skin, want it to break in (break it in)  
She just wanna dance, I'mma get them bands  
Make a lot of stacks, bitch, I'd die for my respect

Wrist, diamonds, ice, neon green lights  
Don't care about the price, I cop it, I smash it, this size  
Wrist, diamonds, ice, percocet, my Sprite  
Percys in my Sprite, Louis bag, three stripes

As I walk through the fire with my wings  
I could only stop for this iron like a lane  
She just want to pop all the molly in the Benz  
I've been getting rich, making money with my friends  
Bitch, we off them shits, time to stay until the end  
I'm just trynna pop all the bottles, fuck the feds  
I got 50 pills all up in our money bags  
She gon' watch how I spend it, like, just to get it back  
Sitting on the field, snakes through the money tracks  
Breaking in and entering, bitch we popping tags  
Keep the fire burning off a blunt like candle wax  
Burning down your money 'til it ain't nothing to stacks

We were on the throne, living on our own  
Hunting my own skin, want it to break in (break it in)  
She just wanna dance, I'mma get them bands  
Make a lot of stacks, bitch, I'd die for my respect

Flick all my lights, chain, dirty Sprite  
Living my life, I'm alright, shawty, she my type  
Die for this I might, chains all freeze outside  
Flick all my lights, chain, dirty Sprite

As I hop by the avenue with my wings  
Baby don't stop, wanna give you everything  
When we off them rocks, I'mma tell you everything  
Soap on my shoes and on my heart, it's getting thin  
But you're a butterfly riding through the desert winds  
I'm a real bad, I love all the finer things  
When I come close, close to you I can't sin  
Heaven knows I'm bad, but Lord, I can't fix a thing  
Fly too close to the sun, my wings give in  
I gave you my whole life, don't owe you a thing  
As I chose life and this rug made of mink  
Burning down the Winter 'cause I'm over everything

We were on the throne, living on our own (Leandoer stranger)  
Hunting my own skin, want it to break in (break it in)  
She just wanna dance, I'mma get them bands  
Make a lot of stacks, bitch, I'd die for my respect
