(Hurt what it do?)

(Hurtboy)

Man oh man, you should see all the kinds of friends we got looking after us

Five x pills bitch, I'm fucked out my mind  
Orange and purple, green pills and lines  
Put the knife to your mouth like the Joker, make you smile  
Frozen city, Frozen Lord, Imma change the time  
All my boys some goblins, snorting blow to unwind  
Pour up a four, then I'm back on my grind  
Change whether I tell ya  
My brother got 'em drugs here, drugs saddler

God on margielas (maisons)  
Blood written love letters (Leandoer)  
Leandoer do it better  
Like a rack got some cheddar

Lean on the phone said Thaiboy bro its the time zone  
I cross two ocean now I'm higher than high bro  
Two blunts up now I can't stop  
Two white SUV riding round the club

Hundred thousand on the floor  
Cocaine on the couch  
Stuffed the dead king cobra in my leather pouch  
Thaiboy goon with me, he rolling weed on leather couch  
Scarecrow gang coming through make you say "ouch!"  
Hit the top  
Flip the rocks  
Getting top  
I can't stop  
Imma go untill it starts  
Sipping Willy Wonka  
We call the drop  
Keep cocaine in my sock  
Margiela flip flops  
Wanted to fuck kate bush  
On the loft, you recruit the soft
