

Lips

Yung Lean

Yeah, uh

The eyes, the hair, the lips
The way you shake and move your hair
I kiss your lips, you smile away
You say you wanna stay a while (I want you)
Take it off, ah-ah, take it off
Ah, take it off, yeah-yeah, take it off
Your legs, the way you move your skirt
The way you move it up and down
Why you lookin' at me with the martini the way you sound? Ayy

I want you, I need you
Come take it

I'm sweatin', yeah, I'm sweatin'
Like I'm off a pill, I'm sweatin'
Yeah, come closer, yeah, come closer
Let the rainbow wash it over, rest
Pupils getting bigger, yeah
Your pupils getting larger now
Closer, yeah, come closer, baby
Take it off and close it, yeah

Lick, lick, Lean
Give me a kiss, kiss, kiss
Do-Down for my neck, two lips, make 'em rain
Give me a kiss, kiss, kiss
Lean, lick, lick, lick
Better kiss, kiss, kiss
Lean, lick
Down from my neck to my legs

I want you, I need you
Come take it, -ke it, -ke it
I want you, I need you
Come take it, -ke it, -ke it

You my butterfly
I'm moving 'round the room from side to side
I need you, yeah, I need you
Yeah, I want you-want you in my life
Whiskey, soda, I want it
Mix the ice and go from side to side
Put it on your body, make you melt it, make you go around
When you with me, when you with me
Wonder what you think about when you're not with me
Can't think clearly, can't think clearly
Girl, the world a mess, except when you near me

I want you, I need you
Come take it, -ke it, -ke it

Butterfly fly over my head clearly
In the city, in the city
Without you feel like a city with no people in it

Lick, lick, Lean
Give me a kiss, kiss, kiss
Do-Down for my neck, two lips, make 'em rain
Give me a kiss, kiss, kiss
Lean, lick, lick, lick
Better kiss, kiss, kiss
Lean, lick
Down from my neck to my legs

I want you, I need you
Come take it, -ke it, -ke it
