

Nobody else

Yung Lean

Tunnel vision on me, that's what I been on, can't worry 'bout nobody else
I can't look forward, I can't look back, you wishin' on somebody else
I'm tryin' hard, stay out of problems, now I only got problems with myself
Sixteen bottles of the champagne, amphetamine in that wishing well

I tell the driver, "Drive me fast," now I'm so gone I might just crash it
In the paradise that found me, go so fast that she can't stand it
Disney ice on Disney ice, and go-go round and go-go round
And everything's the fuckin' same every time that I come around
Come my way, it's my way down, the only one I ever knew
Like systems, like a butterfly, I don't even know what I do
Back at it, need ambience, life just travels back again
If I ever leave I won't come back and I won't look back again

Back, palms of my hand, I see the Lord
I done travelled down this road so many times before

Tunnel vision on me, that's what I been on, can't worry 'bout nobody else
I can't look forward, I can't look back, you wishin' on somebody else
I'm tryin' hard, stay out of problems, now I only got problems with myself
Sixteen bottles of the champagne, amphetamine in that wishing well

What you want from me?
I'll be on this Earth, and I'm doin' too lit
It's my duty, I gotta make the best of it (When the sun goes down)
Tell the driver drive me fast and don't slow down
I close my eyes, clampin' my hand, the world still goes around
Encrypted cryptocurrencies, all types of large amounts
Remember they didn't believe in me, now they leave when I'm not around

My only home is my mind, it's eternal
My dreams is dirty, change is occurring
I put my heart in the sleeve like a journal
But when you roll the dark, you make your own circus
I won't shoot like Las Vegas
Born guilty, stay shameless
I look just like a medieval painting
Hold up the belts like the world's greatest
I'm not made for bein' famous
Turn my vision on me, can't worry 'bout nobody else, I'm sacred
Sacred

Tunnel vision on me, that's what I been on, can't worry 'bout nobody else
I can't look forward, I can't look back, you wishin' on somebody else
I'm tryin' hard, stay out of problems, now I only got problems with myself
Sixteen bottles of the champagne, amphetamine in that wishing well
Tunnel vision on me, that's what I been on, can't worry 'bout nobody else
I can't look forward, I can't look back, you wishin' on somebody else
I'm tryin' hard, stay out of problems, now I only got problems with myself
Sixteen bottles of the champagne, amphetamine in that wishing well
