Yung Lean

Yeah  
Sad Boys  
GTB

See me, flossin', flossin' lean, like a dental health care  
Polo, polo everythin', make that denti-denti-dentist scared  
Make ya bitches stare, ride on spaceship  
Jump on top of my crystal chair  
I sip 40's, North face, black neon lightnin' gear  
Walk in the back room when I finish shed a tear  
Then I buy the sword and the spear, light-year  
Kill the game then disappear  
Get my dick licked by Britney spear  
G-shocks and the silver's clear  
Rob the cashier, listen with one ear  
Got the game in my hand, I'm the mad hatter, with a sad boys ta  
t  
Ratatat

Olders don't know how to rap, ya know I'm strapped up  
Lean's all around me, I been I been really sippin'  
I see dead people, I'm really trippin'  
Take 'em to the back and get the snappin'  
Cause I'm rich man, cause I'm rich man  
(Flex), (Stunt), (Woop)

Holy sword, shadow Bladee, my girlfriend looks like anime  
Never had a car but I'm still inhaling the candy paint  
Bladee man, Astroboy, I'm smoking on a asteroid  
I'm inside a plastic void, I turn into a plastic boy  
Drinking liquid acid out of plastic cups, Jurassic boy  
Watch on my wrist, it's all black but it's made of gold  
Raining gold, I'll break your soul, my mind is using mind contr  
ol  
In a gold mine with an axe and a superstone  
Gucci phone, Coca Cola snow, sending super drones  
From the iron throne, put you down like a skeleton  
In my bones, silver herringbone like the thunder dome  
When I woke up one day, everything was gone

Olders don't know how to rap, ya know I'm strapped up  
Lean's all around me, I been I been really sippin'  
I see dead people, I'm really trippin'  
Take 'em to the back and get the snappin'  
Cause I'm rich man, cause I'm rich man
