

sauron

Yung Lean

Green Hellcat mix matched with the jetpack
Stacks, rubber band man, land jugger, ten band
Damn, Stockholm city, frozen snakes, Gucci headband
Damn shawty, way too bad, went to hell and sent back
Look back, look back, I don't wanna look back
Shook head, loud pack, riding with a mousetrap
Snakeskin on my timbs, fuck my swag, they took that
Cops in the alley, fuck that

Ice on, fight's on, Lean put the lights on
Do wrong, new song, new day, new cakes (Lean)
New world, no brakes
I be switching on my knee and hand it to the bricks

Slowly, house fake, word lake, generate, cherry colored birthplace
Lean in the club, it's an earthquake
Got the cash, no safe
Feeling like I'm Sauron, got that mask on my face

Yellow covered mattress in the set where we scope
We the type of boys to change the game and go broke
I don't give a fuck, she ride me till my bone broke
Champagne nightmare, Fendi, fight fair, wizards with ropes
Yellow covered mattress in the set where we scope
We the type of boys to change the game and go broke
I don't give a fuck, she ride me till my bone broke
Champagne nightmare, Fendi, fight fair, wizards with ropes

Ice on, fight's on, Lean put the lights on
