

# Stars Align

Yung Lean

Stars align, shadows in the sky  
I bring the night alive, creepin' like a spy  
I'm swimmin' with the devil, I'm alone tonight  
I'm swimmin' with the devil, I'm alone tonight  
Stars align, shadows in the sky  
I bring the night alive, creepin' like a spy  
I'm swimmin' with the devil, I'm alone tonight  
I'm swimmin' with the devil, I'm alone tonight

Border patrol, imported kilos of blow  
I'm in a Range Rover, sold out the shows  
I like my yellow like gold  
Hundreds my rolls, show up in 'dro  
Wherever I go they think that they know  
I'm with my bros, don't talk to po-po, Y-3 my toes  
I lost my soul, I pour up a four, I think I need more  
I think I need more, a friend from a foe, I make it snow  
When I'm alone, when I'm alone, leany gets sore, leany gets sor  
e  
Life is a bore, I don't need no more, I don't need no more  
Superman captured, I go in, I go all out  
Tags on my jeans they all watchin when I walk out  
Yeah, I'm a dropout 'member when they used to doubt  
You know what I'm about, you know what I'm about  
Far in the distance, come close, make you scream and shout  
Far in the distance, come close, make you scream and shout  
Far in the distance, come close, make you scream and shout  
Swimmin' with the devil, I'm alone tonight

Stars align, shadows in the sky  
I bring the night alive, creepin' like a spy  
I'm swimmin' with the devil, I'm alone tonight  
I'm swimmin' with the devil, I'm alone tonight  
Stars align, shadows in the sky  
I bring the night alive, creepin' like a spy  
I'm swimmin' with the devil, I'm alone tonight  
I'm swimmin' with the devil, I'm alone tonight

Stars align, shadows in the sky  
I bring the night alive, creepin' like a spy  
I'm swimmin' with the devil, I'm alone tonight  
I'm swimmin' with the devil, I'm alone tonight
