

# Don't Even Matter

Yung Mal

(808 my crew)

I've been stacking up on hunnids, on hunnids, on hunnids it don't even matter

Sippin' this codeine fucked up my bladder

I was on first skreet now they see me on channel

All that shit get cooked up, keep it organic

Name hoe wet make her cum out her panties

Stuck with some cowboys like I'm from Dallas

We keep shit at the palace

Tryn' stay focused, tryn' stay balanced

I got that drip by the gallon (drip)

You know we sip on the gallon (mud)

I do my show with the cannon (scrap)

Bitch I came up where them houses abandon

I couldn't go home empty handed, naw, fuck it, I'm trappin'

I'm catching plays like many

Dope came back I was serving your granny

Nigga killed plug you will sleep on the xany

Bought me some sticks, could've bought me a Patek

Whole clip strapped like we killin' Bin laden

So many guns the feds on me bump

I told them "their props you can try, if you wanna"

Trap 24 you can buy what you wanna

They commin' iceberg, but I'm hot like a sauna

I ran that shit up gave racks to my mom

Son fin turn sixteen might buy him a hummer

These sticks bullets they spread like a ton

I spin your block and a run up

A charge of they tone

Just tryn' clear my head I got tunnel vision

Just drop the charge my lawyer do tricks

My front line don't say shit they blitz

At the top floor eating fish and gritz

So many hundreds came up

I've been stacking up on hunnids, on hunnids, on hunnids it don't even matter

Sippin' this codeine fucked up my bladder
