

Never Go Under

Yung Mal

So much pain but I never go under
I done made it through that storm, I don't hear no thunder
Wanna hold you in my arms, just wanna give you more loving
No one else would mean nothing, we was made for each other
So much pain but I never go under
I done made it through that storm, I don't hear no thunder
Wanna hold you in my arms, just wanna give you more loving
No one else would mean nothing, we was made for each other

Catching flights out of town for that money, I go yonder
Sometimes it's hard to track me down 'cause I got like four numbers
And baby I been staying down, I ain't seen no fumbles
All this water 'round my neck, baby it's like a whole puddle
Somebody need to call the plumber
Walk in the club, make it thunder
Got so many bands it make me stumble
I did some numbers to get this lumber
So much pain but I never go down
I done made it through that storm, baby I did not drown
So it's all on me now
My homie got gunned down
Can't chill and sit around
Can't kick it, I can't lounge
Can't waste time with you clowns
You can pull up, we got pounds
Need all mines like right now
My family need me now

So much pain but I never go under
I done made it through that storm, I don't hear no thunder
Wanna hold you in my arms, just wanna give you more loving
No one else would mean nothing, we was made for each other
So much pain but I never go under
I done made it through that storm, I don't hear no thunder
Wanna hold you in my arms, just wanna give you more loving
No one else would mean nothing, we was made for each other

We was made for each other, that's on God
Had to run me up a check, I had it hard
Nigga fuck around with the gang the we gon' pull his card
Just got dropped off with your main, I pulled off in a car
And I'm rocking Calvin Klein, don't do no Hanes, two grams in my cigar
Two seater switching lanes, this ain't no gas, lil bitch this some propane
Couple shooters on the side and they got aim and they don't play no games
So much pain inside my eyes and in my veins but I can't even complain
'Cause I'm up now and I ain't going back and that's on everything

So much pain but I never go under
I done made it through that storm, I don't hear no thunder
Wanna hold you in my arms, just wanna give you more loving
No one else would mean nothing, we was made for each other
So much pain but I never go under
I done made it through that storm, I don't hear no thunder
Wanna hold you in my arms, just wanna give you more loving
No one else would mean nothing, we was made for each other
